

Kimchi/Ginger UI separation  
based on the old design

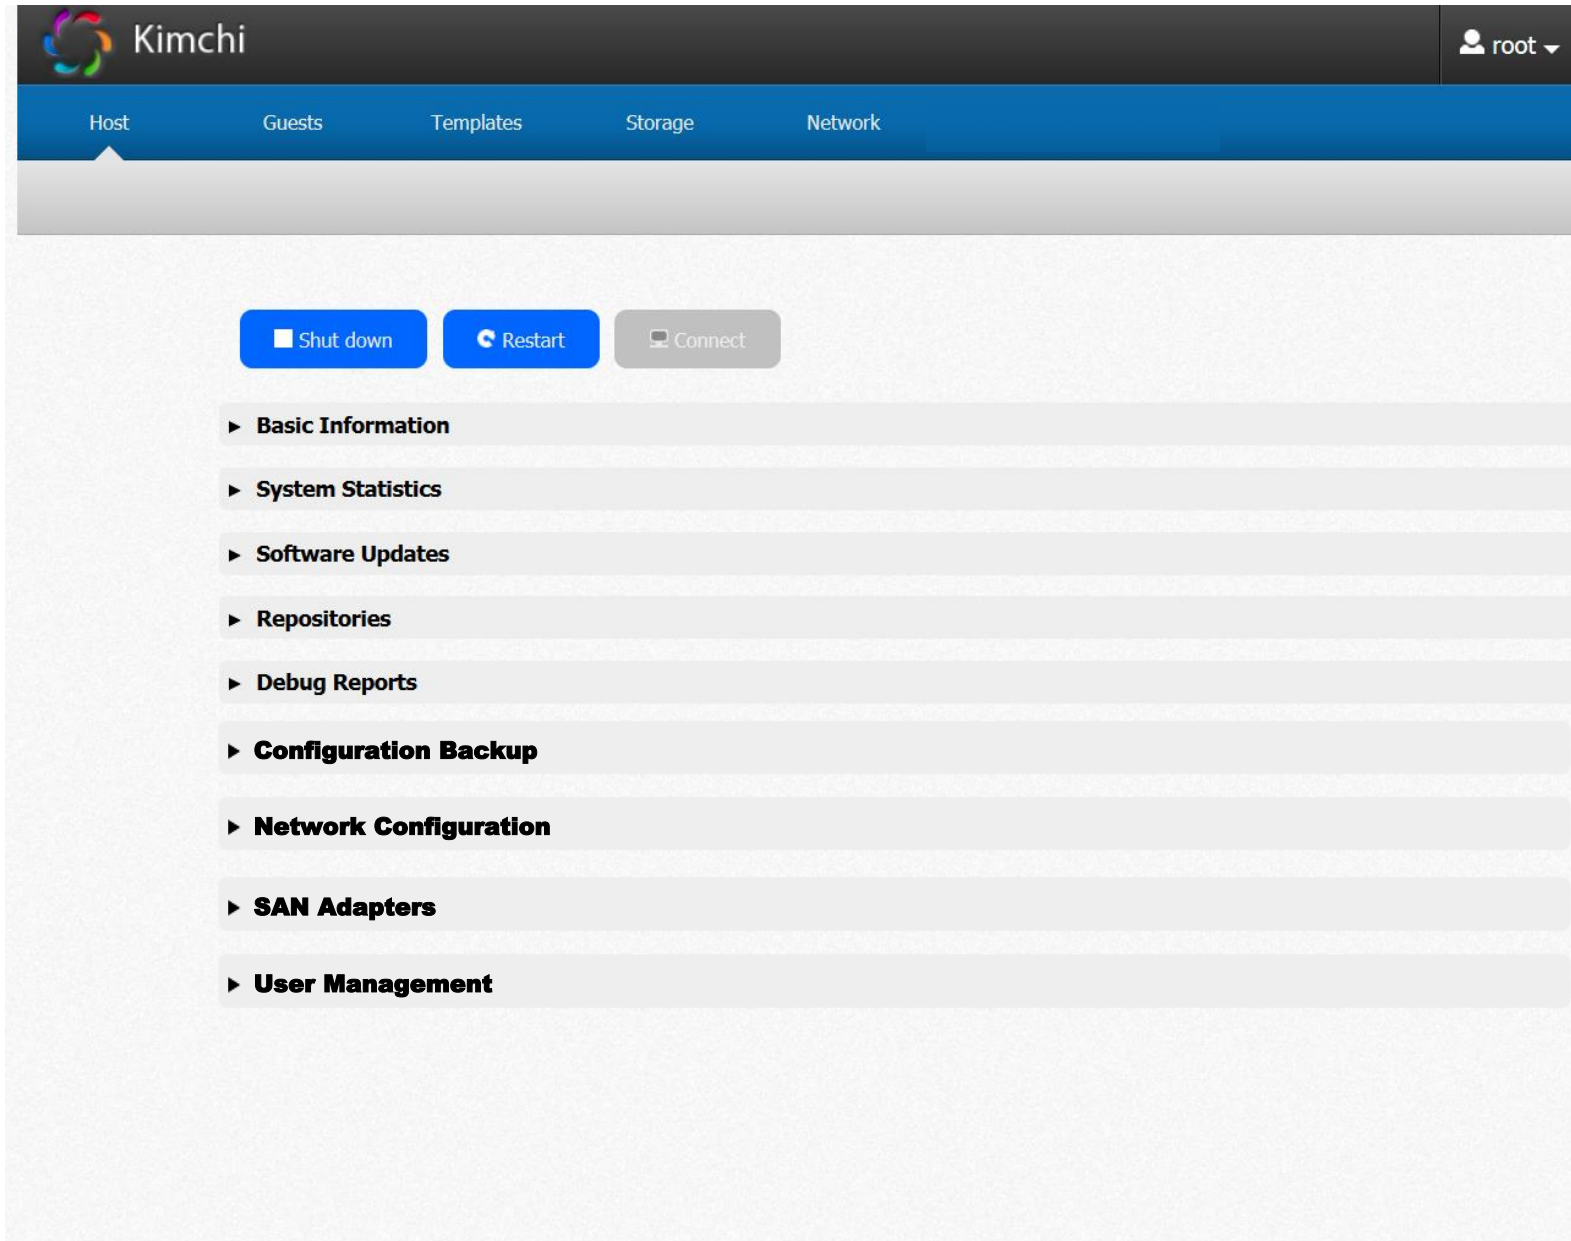

# Ginger only

The screenshot displays the Kimchi web interface. At the top left is the Kimchi logo, and at the top right is the user 'root'. Below the header is a blue bar with the word 'Host' and a small upward-pointing arrow. The main content area features three buttons: 'Shut down' (blue), 'Restart' (blue), and 'Connect' (grey). Below these buttons is a list of menu items, each with a right-pointing arrow:

- ▶ **Basic Information**
- ▶ **System Statistics**
- ▶ **Software Updates**
- ▶ **Repositories**
- ▶ **Debug Reports**
- ▶ **Configuration Backup**
- ▶ **Network Configuration**
- ▶ **SAN Adapters**
- ▶ **User Management**

# Kimchi and Ginger

The screenshot displays the Kimchi web interface. At the top, there is a dark header with the Kimchi logo and the text "Kimchi" on the left, and a user profile icon labeled "root" with a dropdown arrow on the right. Below the header is a blue navigation bar with the following menu items: "Host", "Guests", "Templates", "Storage", and "Network". The "Host" menu item is currently selected, indicated by a white arrow pointing to it.

Below the navigation bar, there are three buttons: "Shut down" (blue with a square icon), "Restart" (blue with a circular arrow icon), and "Connect" (grey with a terminal icon). Below these buttons is a list of expandable menu items, each with a right-pointing triangle icon:

- ▶ **Basic Information**
- ▶ **System Statistics**
- ▶ **Software Updates**
- ▶ **Repositories**
- ▶ **Debug Reports**
- ▶ **Configuration Backup**
- ▶ **Network Configuration**
- ▶ **SAN Adapters**
- ▶ **User Management**
